Methodology

You will be totally immersed in the Spanish language and culture speaking Spanish from day 1. A co-ordinated system of teacher rotation and tuition groups that are made up of students of different nationalities, ensure that the classes are always stimulating and engaging.

More than 45 years' experience guarantees a high quality of teaching from teachers who are constantly encouraging and motivating the students to use their Spanish. The majority of the textbooks and supplementary teaching materials are created by our teachers.

On our main General Spanish courses, we use an eclectic, integrated method combining aspects of the communicative approach with structured learning of grammar and syntax. This involves elements of traditional teaching methods, as well as classroom activities such as language games, pair work and role plays.

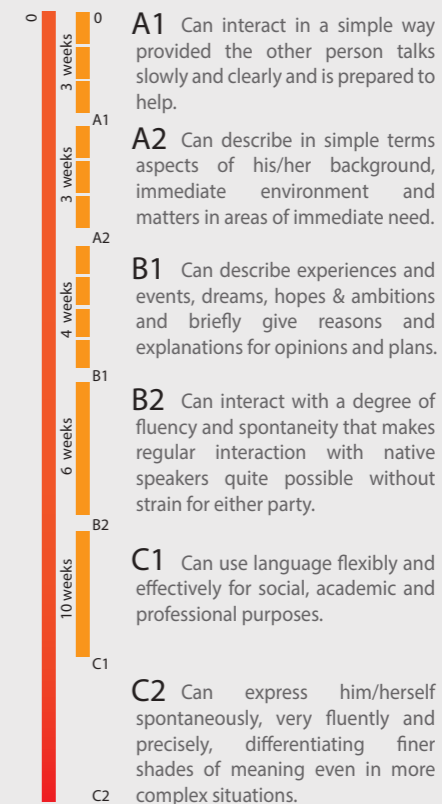

We are regularly inspected by independent teaching experts and this external quality control is your guarantee that our programmes are of a high standard.

Level test

On the first day you will take a placement test consisting of a written and oral exam. The test ensures that you will be placed, along with other students of the same level, in an appropriate group.

The CEFR and Malaca Instituto levels

The diagram below indicates what a student can do in Spanish after completing each level of our programme. These "descriptors" are in line with the Common European Framework.

• Students do not usually go from beginner to B2 in 16 weeks. They invariably need to repeat to take more time in assimilating the language.

• Level B2: An average student studying from total beginner level can usually achieve a B2 level in 20 weeks. Students without a European language background will invariably take longer.

• Level C2: While it is possible in 48 weeks for a competent European language background student to cover the grammatical structures of a C2 level and acquire a wide-ranging vocabulary, a real C2 level also requires several years living and communicating in a Spanish speaking environment.

GENERAL SPANISH

We offer all language levels from total beginner to advanced, covering all aspects of the Spanish language.

In addition to the lessons there are 7 free of charge cultural/social activities per week.

Minimum age: 16 years.

General Spanish

Courses start every Monday throughout the year, except for complete beginners who have frequent specific starting dates (see dates and fees leaflet).

The programme consists of progressive weekly modules of 4 lessons per day with a maximum of 10 students per class.

In order to pass to the next module, students must sit a short test at the end of the week which is then corrected during class hours.

For those finishing a complete level (A, B, C) a longer test can be taken outside scheduled class hours.

✦ Intensive 20: 20 less/week

You may also add a further 4 or 6 lessons per week of oral communication skills (max. 6 students per class) to make 24 or 26 lessons in total per week.

Duration:

1-16 weeks (20,24 & 26 less/week)

1-40 weeks (bookings in excess of 16 weeks can only be of 20 less/week)

✦ Super Intensive: 30 less/week

Made up of Intensive 20+10 lessons of oral communication skills.

Duration: 1-16 weeks (30 less/week)

Levels: Intensive 20,24,26 & 30

These courses are offered at all levels. On the rare occasions on which there is only 1 student at a particular level we reserve the right to negotiate an alternative study plan.

One-to-one (Individual tuition)

Some students choose to book additional 1-1 classes for the added intensity and individual attention that these classes offer. These lessons are best booked in advance but can be requested once here.

Certificates

Students receive Attendance Certificates for courses satisfactorily attended & Certificates of Linguistic Competence for end-of-level exams passed.

DELE EXAM PREPARATION

This course is for students who want to study for an official diploma confirming their level of Spanish. Twice a year we run preparation courses for DELE levels A2, B1 and B2.

We can also offer preparation for the other exam dates and levels in individual or closed group lessons on a request basis.

DELE Examination preparation (Diploma de español como lengua extranjera)

The DELE examinations, organised by the Instituto Cervantes, are the most important examinations for Spanish as a foreign language and are officially recognised by the Spanish Government.

The Exams are offered at 6 levels: A1, A2, B1, B2, C1 and C2 in accordance with the Common European Framework.

Our school is an official DELE examination centre enabling our students to take the exams in the same place as they are studying.

The duration of the specific exam preparation element – once the overall general level has been achieved - is 2 weeks for A2 and 4 weeks for B1 and B2.

Many students study on a general Intensive course first to achieve the level needed for the exam preparation.

✦ Specific DELE Preparation

20 lessons/week (2 or 4 weeks)

Max. 10 students per class.

During the course, students not only practice the different skills which will be examined, but will also have mock exams to familiarise themselves with the actual examination.

Prior to booking a course, students must take a level test to assess their level and to determine whether they can join an exam class directly or need to take a general Intensive course first.

Combinations of **Intensive** courses and **Exam preparation** can be taken as detailed in the table below:

	Duration weeks			
	Intensive	+ DELE	Total	
Total beginner	A2	8	2	10
	B1	14	4	18
	B2	22	4	26

Based on the level test we will advise the length of study needed (usually between 10 and 25 weeks for a European background student) including the specific Exam course of 2 or 4 weeks.

UNIVERSITY ACCESS UNDERGRADUATE DEGREES

If you are considering studying for an undergraduate degree at a Spanish University, Malaca Instituto will not only enable you to reach the level of fluency needed in Spanish but will also prepare you in the subject areas you may require for University entrance and help you in the University application procedures.

For those who would like to gain a high level of Spanish and a first experience of university study, we offer a Spanish plus University semester programme. See page 26.

Entry to Undergraduate Degrees

Spain has some of the oldest Universities in Europe and a great academic tradition. With over 500 million people speaking Spanish in the world and being the second most used business language, a degree taken in Spanish is a highly valuable CV item.

For more than 20 years we have been preparing students successfully for Spanish University access exams. In the past these were compulsory for non-EU students to enter Undergraduate Degree programmes.

Previously known as Selectividad, there are now exams called (PCE/EBAU) and we prepare for these from January through May each year.

However, some Universities are now offering the opportunity to non-EU students to apply for guaranteed places ("Early Admission") on some degrees on the basis of their high school or university entrance scores. Deadline dates and requirements vary widely and we strongly recommend that students apply for "Early Admission" and also take our PCE Exam preparation course as a back-up.

To join this course you must already have achieved a B2 level of Spanish. *Most of our students therefore study between 3-9 months of **Intensive Spanish** prior to the January start date.*

This course not only guarantees a high level of Spanish and a quality preparation for the exam subjects, but it also serves as a perfect pre-University programme.

We provide detailed consultancy on which subjects to take in the entry exams, according to the University and Degree of choice, and help with the procedures for University entrance. We prepare students for exams in both humanities and science subjects.

If you are interested in preparing to enter an Undergraduate Degree programme in Spain, please ask us for the up-to-the-minute information and the best access route for you.

UNIVERSITY ACCESS PREPARATION FOR MASTER DEGREES

If you want to take a Masters degree at a Spanish University, Malaca Instituto can provide you with a specific preparation programme which will help you to acquire the language level necessary to study at University (minimum B2) and will also provide you with counselling and advice in choosing and enrolling for the best programme.

Access to MASTERS Degrees

A wide range of MASTERS degrees are offered in Spain, some of which are in English. We strongly advise that you should study at University in Spain in Spanish. After all, this is the world's 2nd business language and it will enhance your CV.

To be able to successfully study in Spanish at University level you will need at least a B2 level of Spanish. For complete beginners, it can take between 5 to 12 months of Intensive Spanish to achieve this level, depending on your linguistic background and abilities.

The access to **"MASTERS DEGREE"** programme combines:

Duration: **28 weeks**- depending on your level of Spanish.

You will find that not only is the cost of living substantially cheaper in Spain than in many countries, but the cost of official Masters Degrees at the most prestigious Spanish Universities, is also much cheaper.

Students should be in Spain from January as the best enrolment dates for Masters Degrees are in February and March when places are available on all Degree courses starting in October. "I couldn't recommend enough Malaca Instituto and the Erasmus+ funding. When I arrived I only knew a little Spanish, but when I left I knew much more. The most important thing is that my interest in learning another language has been revitalised and I can pass this on to my students. It's an incredible opportunity for learning and enjoying at the same time. The school is magnificent and the staff are incredible"

We create tailor-made programmes for individuals or for groups of people with the same needs, objectives and level of Spanish.

One-to-One lessons

Professionals and Executives with specific requirements and a need to achieve their objectives in a limited timeframe, can find that the intensity and individual attention of the one-to-one lessons is the ideal way to attain their goals.

In order to vary the intensity and format of the teaching, clients frequently look for the blended option of an Intensive group course combined with additional 1-1 lessons. The higher than average age range of our students makes this a particularly attractive option.

Duration: 1 week or longer.
Entry level: All levels.

Closed Groups

We also provide tailor-made – “closed group” programmes for any small group of people with similar levels and objectives who prefer to study together. Recent examples have been groups of teachers for methodology classes and groups that are studying at home in Evening Classes.

Group proposals and quotations will be sent on request.

We recently received a group of teachers and staff from the Charlotte Sharman Primary School in the UK, **with funding from the Erasmus+ scheme.**

Their lead teacher, Lyndsay Fawcitt, commented:

“On behalf of everyone from the Charlotte Sharman school Erasmus+ team, I would like to say a huge thank you to everyone at Malaca Instituto.

We had an unbelievable time and have learned so much. A special thanks to Pilar, Juan Luis and Yolanda. They have been amazing!

It is so nice to know that we will be coming back for another trip as part of our continuing programme. I'll be in touch to organise this as soon as we have decided on our next trip date.”

For information on our school group programmes see page 48.

The Mediterranean diet in all its forms is regarded as a culinary icon and many of its ingredients are staples of Spanish gastronomy: olive oil, fresh fish, cured ham, seafood, almonds and pulses of all kinds. You will enjoy using them in classical local dishes.

Add to this our great Rioja and Ribera del Duero wines, fantastic cheeses and excellent meats and you have all the ingredients needed for a fascinating food culture.

At Malaca Instituto, in addition to being a world-leading provider of Spanish courses, we are also very proud of our cookery lessons which take place in our practice kitchen. After a course like this, words like "tapas", "pescaito frito", "ajoblanco", "espetos" or "Pedro Ximenez" will remain with you for ever.

SPANISH AND DANCE

Andalusia is the cradle of Flamenco dance, an art form synonymous with the Spanish way of life. Where better to learn the basics of this dance form, or, if you prefer, the passionate expression of the Latin way of life which is Salsa.

Spanish plus Flamenco & Salsa

Dance and language are intimately related and never more so than in Latin cultures. At Malaca Instituto we offer courses combining the study of Spanish at any level with dance classes aimed at the beginner or those with a little knowledge.

Flamenco is an essential and mysterious element of Andalusian culture, mixing aspects of Indian, Middle Eastern and Gypsy musical forms and rhythms. Its style, depth and power attract an ever growing following around the world.

Salsa is possibly the most popular dance form in the world today, having its routes in the afro-Caribbean culture of Cuba.

Duration: 1 or 2 weeks.

Entry level: All levels.

This programme is a combination of:

✦ **Intensive 20:** 20 lessons/week
Max. 10 students per class.

✦ **Dance Sessions** 5 lessons/week

Flamenco and Salsa taster classes are also included free of charge in our social activities programme. Give them a try, you may just want to book more!

SCHOOL AND UNIVERSITY GROUPS

Each year we receive school and University groups from around the world, both state and private. Our high academic standing and campus facilities make us an ideal choice for this type of programme. We create tailor-made programmes for each group.

School and University Groups

Teachers and other group leaders look for destinations where they can be assured of the academic quality and the total support of local staff. At Malaga Instituto it is our aim to provide this.

Group leaders, especially of high school groups take on enormous responsibility for the students in their care and need and appreciate the support of our 40 or more staff and the range of services (catering, accommodation, 24-hour reception) and facilities (pool, dance studio, terraces) found on our campus.

Malaga city is an ideal city for these groups. Southern Spain's main airport makes it easy to get to and, being a medium-sized city, it is safe and easy to get around. Its historical heritage, huge selection of museums and monumental architecture, not to mention its beaches and climate, provide a panorama of opportunities from which to create the perfect programme for each group.

The programmes are usually complete packages of tuition, activities, catering and accommodation. Each is tailored to the needs of a particular group, taking into account ages, duration, level of Spanish and specific objectives.

For groups who prefer to stay in host families, our host family department can organise appropriate accommodation for them. However, it should be noted that for short stay programmes and especially for students under 15, experience shows that accommodation in our residence can be more convenient, having everyone under the same roof.

*"Our students had such a wonderful time and many of them commented that **it was the best trip they'd been on** in their time at King Alfred's (we do lots of trips so this is high praise indeed from students who've been skiing in Boston and on Art trips to Florence!). The absolute best thing for me was **the enthusiasm and confidence that students have brought back with them.**"*
